MINDEN AGRICULTURAL SOCIETY FAIR DRAWS RECORD CROWDS HERE, LAST WEEKEND

Humid hot weather prevailed on One of Minden Fair's greatest days, Saturday last.

A new event in the Fair this year was that of a PARADE which was a real success. Headed by the Lindsay Kinsmen Band, Dignitaries Mr. Fred Davies well known CBC TV personality, Mr. William Scott, Federal MP, Mr.

Glen Hodgson, Provincial MP, Mr. Douglas Russell, Warden of Haliburton County and Mr. Charles Brandon, Reeve of Municipality of Anson, Hindon & Minden, the parade left the Minden Recreation Centre, proceeded through the Main Street and on to the Fair Grounds where the official (Continued on Page 8)

A WORLD OF ART HERE IN HALIBURTON

Ceramics was one of the more popular programmes offered during the recent summer sessions of the Haliburton School of Fine Arts. Josh Beutel, of Cornwall, watches while Mrs. Margaret Valentine, of Norland, surrounded by more modern forms of ceramics, forms a jar on the traditional pottery wheel under the direction of Toronto instructress Chizuko Shimano. Classes in landscape painting, linocut and blockprinting, and photography are planned for the fall.

Stanhope Aerodrome Will Officially Open Sunday Sept. 1st. With Fly-In

On Sunday, September 1st, the Stanhope Township Municipal Aerodrome will be officially opened by the holding of a "Fly-In." Admission for this historic event will be 50 cents, while parking of vehicles is free.

On hand for the opening ceremonies will be the Reeve of Stanhope Township, Mr. Sinclair Nesbitt, our Federal Member of Parliament Mr. William Scott, and our Provincial Member, Mr. Glen Hodgson.

The program for the day will include Aerobatics, subject to approval of the Air Minister, light aircraft manoeuvres, a display of home-built aircraft by the Experimental Aircraft Association of Canada, of which a local Chapter is being formed; student demonstrations, 15-minute flights for visitors, etc., and on the ground refreshment stands, music etc.

Members of the Stanhope Flying School will be on hand to furnish information, literature and registration forms for would-be flyers.

The facilities of the new Aerodrome include tie-downs, gas, snack bar, reception centre, toilets. For flyers wishing to come in the compass bearing is: Latitude 45 degrees, 7 minutes N., Longitude 78 degrees, 39 minutes W — unlicensed — surface grass strip, length of East-West runway 2500 feet.

To give our readers a glimpse of developments leading up to this event — The Stanhope Council, recognizing that flying is becoming more and more the mode of travel, last year decided to establish the Aerodrome with a view to attracting many more visitors to our area, and possibly providing employment for some of

our young citizens.

A committee was set up to get the project underway, namely, Fred Olam, President; Doug Adamson, Vice-President; Eric Cross, Secretary-Treasurer. A great deal of enthusiasm has been made evident by the hard and painstaking work done by the Committee and the many volunteer workers who have helped to make the Aerodrome a reality, and particular mention should be made of Francis Thomas, Builder and Harold Burton, Retired Merchant, both of Carnarvon, for their financial support in the early stages of the project.

The question of local flyers was not overlooked, and in January of this year the Stanhope Flying School was organized with an initial registration of 20 students. Training flights have been under the very able instruction of Mr. Helmut Kruckel, from Air Muskoka located at the Department of Transport Airport at Gravenhurst.

Ground School got under way a couple of weeks later under the direction of Mr. Hanley Clapper-ton. The Clifton family of Tall Pines very kindly offered the

facilities of the Lodge for Ground School every Wednesday evening, and after an hour and a half of study, the students were treated to some of Mrs. Clifton's tasty cakes and coffee. Also the Film Library at Haliburton has been very helpful in providing the School with film and projector every week.

The attendance at the School held up very well all winter, and last week six students — Alan Barnes, Eric Cross, Ken Hone, Bob MacBrien, Joe Peacock and Louise Watson — travelled to Gravenhurst and wrote D.O.T. examinations. All the students expect to write within the next month or so.

The Aerodrome holds promise of being a real asset to Haliburton County, in that it will provide a link with many more and far reaching areas of our country.

The Committee is hopeful that local residents will give all the support they can to this "FLY-IN" which is really a step forward in the life of our community.

In the event of rain, the FLY-IN will be held on the following Sunday, September 8th.

\$600 DAMAGE

Damage of \$600 resulted about 7 p.m. Saturday from a two-car crash in Harcourt Park, in Harcourt.

Police said drivers of cars involved were William Crofts, 32, of London, Ont., and Emmet Madill, 35, of Haliburton.

Minden OPP Constable Allan Sharkey investigated.

HERE AND THERE

by FENWICK FINCH

Last week we ran out of space before we could use the following item. So, to start off this week — here it is —

We have "sightings" in the news again. This time it's something unusual — Les Hogg was telling me his two boys Bill and Bryan found a five-legged frog. The fifth leg appeared just under the throat. The boys had the frog in a glass jar and when they were showing it around the jar fell and broke — the frog took off all five legs in action and hasn't been seen since.

There have been a great many comments upon the way the grounds have been kept around the Post-office this summer. The flowering shrubs, the grass and general cleanliness of the grounds is indeed a credit to the community.

The man with the "green thumb" and the "loving care" who has kept it in such good shape is our good friend Amos Brubacher. Not only does Amos keep a clean and beautiful yard he spends long hours over and above his regular time to keep everything ship shape. The results are indeed a credit to him.

* * * *

By the look of the wrecks we have sitting around in the various garage yards and and the lack of any serious injuries etc. must prove the fact that someone "up here" must like our motoring public. The laws of average should be about ready to run out — let's hope this week-end doesn't take too heavy a toll.

Visiting with a city friend a short time ago I was prevailed upon to take a swim in his pool. It tasted rather unusual when I got a mouthful — I found out it was partly filled with whiskey — the idea being you couldn't possibly drown as the further you sank the higher you got. — makes sense?

* * * *

Saw a good definition of taxpayers the other day. — "People who don't have to pass civil examinations in order to work for the government.

* * * *

I have a bit of news that should make some of my critics very happy — you have just read the last column for awhile. The motoring tourists will be able to drive every which way and not find me on their backs. To those who have been kind enough to write me and tell me they enjoyed the column — thank you — your kindness was appreciated.

So, take care of yourselves until we get together again — drive carefully so that you can be around to either enjoy the column or take "pot shots" at me. Best personal wishes to all of you.

Fenwick

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular weekly feature prepared by the Family Financial Counselling Service of the Avco Delta Corporation, P. O. Box 2820, London, Ontario. All questions submitted to the above address will be answered, in print or by return mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

Dear Sir: Something has gone all wrong. We budget pretty carefully, and things have been working just fine. Now, all of a sudden, I find out that my daughter needs dental work and braces. Cost \$800! Now, where does the average guy get that kind of money, and how are you supposed to stay within a budget with extra expenses like that?

W.A.M.

I'm afraid you'll just have to make up your mind to one thing. If your daughter is to have her dental work and her braces, you'll have to recognize your budget. But by all means, keep a budget. Don't throw the whole thing out the window just because you have an overwhelming and unexpected expense.

First of all, go over your current budget very carefully and see if there aren't some places where you can make cuts. See if you can't come up within a certain amount every month that you can apply toward this \$800 expense. Now, I know you're not liable to find a loose \$800 in your budget, you may find that by cutting to the bone on some things, you can come up with \$25 or \$30 a month.

Next, find out if your orthodontist or dentist will allow you to make monthly payments. If not, I suggest you contact your bank or one of your local consumer finance offices and talk the whole situation over with the manager. Explain your budgeting situation with him and he'll tell you how much you can afford to pay each month on a loan and how much of a loan you can get from him.

After taking with him, you can

decide what the most practical step to make will be.

In any event, I would urge you to have the dental work done. Your daughter will thank you for the rest of her life.

WATERFOWL BAG AND POSSESSION LIMITS IN 1968

Bag and possession limits for waterfowl remain essentially unchanged in Ontario, according to the 1968 Migratory Birds Regulations, released today by the Canadian Wildlife Service, Department of Indian Affairs and Northern Development.

The bag and possession limits remain at five and ten for ducks, five and ten for geese, ten and twenty Wilson's snipe, and eight and sixteen for woodcock. Ontario hunters may take four wood ducks per day and may possess eight. Not more than two canvas back or redhead ducks may be taken daily and not more than four may be possessed. On and after October 12 two additional scaup or goldeneye may be taken daily, and four additional scaup or goldeneye may be possessed.

Limits for rails, coots, and palinules are five and ten, except that Indians, Eskimos, Metis, and other persons living by trapping and hunting may take twenty-five daily with no possession limit.

When hunting or transporting migratory game birds, you must be in possession of a valid Canada migratory game bird hunting permit in addition to any required provincial hunting permit. The permits are sold for \$2.00, at post offices.

TENDERS

Tenders for the CONSTRUCTION of a Maintenance Building will be received by the undersigned until 5:00 p.m. Monday, September 9, 1968. Specifications may be obtained at the School Office or from the Board Secretary.

Lowest or any tender not necessarily accepted.

GERALD M. DAWSON, Secretary-Treasurer
Haliburton County District High School Board
Haliburton, Ontario.

A FEW BITS AND PIECES

To top things off this week, we must first congratulate the Minden Agricultural Society for their splendid fair. This years attendance, according to officials was of a record nature.

For such a small community, Minden can certainly boast of a fine fair, with plenty of good home-made entries on exhibit. The horse and cattle showing is first class, with many entries such as Sinc Nesbitts teams, of Royal Winter Fair caliber.

One thing that bothered me this year was the fact that our camera went on the blink the day before the fair, and we were unable to get it repaired or replaced in time for a few pictures. But these things happen.

Two things still bother me on the main drag. We have mentioned them before, but will bring up the issue once again.

As you may recall our editorial last year entitled "The Sweet Smell of Our Johnie House". Well, it has smelled this summer as if nothing was ever done with this most disgracing area of our community. Why more of our businessmen and our towns people don't complain about this building is beyond me? Sure it is being used — thats why the odor. What concerns me is the distasteful image it leaves with many of the summer visitors. Believe me I walk past it every day, and I hear many dreadful remarks made by summer visitors. Mind you it might be a different story if these same people had to use it in a hurry?

Now is the time, this fall, to do something about it for next year. Lets give it some thought.

Our other complaint is the parking of local businessmen's vehicles on the main street. Heaven knows we are short of space as it is without having space taken by local employers and employees.

Recently Fenwick Finch took a run at some of the merchants for this parking bit — but believe me it is serious. It seems a little ridiculous to even have to bring the subject up. On Saturday we took count, and this can be said for any given day of the week, summer or winter, we counted seven cars taking up space, while our visitors in great number looked high and low for parking. Lets take a longer look at this parking problem, and give some thought to those who supply the bread and butter.

One last thought — from last weeks report on the new programs being introduced at the Minden Public School, along with the new additions over the past couple of years, we take our hats off to the hard working board. Without a doubt they have done an admirable job. The new board coming in, in January will have their work cut out to keep up with the progress this board has made.

LETTERS TO THE EDITOR

August 26, 1968

Dear Sir,

We have noticed the frequency of your very generous exposure of the Smokey Bear symbol in your paper and wish to express our sincere thanks for your co-operation in this gesture of Public service.

It may interest you to know that in all age groups from Kindergarten and junior school to adults, Smokey is recognized by young and old as the true symbol of Forest Fire Prevention.

We also have another symbol which, while less well known is equally important in the well being of our citizens especially those in resort areas where cleanliness is so necessary and desirable. I refer to "Litter Pickin Pete". This jovial character with

243 Becker St.,
Kitchener, Ontario
August 22nd, 1968

Dear Sir:

Being a property owner and taxpayer in Stanhope Township, I feel justified in criticizing the building and engineering of No. 35 Highway in the Hall's Lake area.

To me, it is one of the saddest engineering efforts I have ever seen. In the particular section from Cherokee Lodge to Lorilec Lodge, the road has been elevated feet upon feet unnecessarily. Dick Cummings Garage has been practically eliminated from business; Mr. Jack Rothwell's driveway has been made a total loss; Mrs. Ruth Brown and her father, Mr. Norm Taylor couldn't possibly get into their garages with a bulldozer — all due to the unnecessary elevation of the road in front of their property. Our own driveway, which services ten or twelve cottages, has been made a hazard to entering the highway because of "no" visibility in either direction.

As I see it, the only solution is to remove all of the roadway as it is now constructed and revert back to the old grade level, which would give greater visibility from the lower end of the Lake to Stinson's Store. This would make access to the aforementioned properties better, and would enhance their values, rather than ruin them, as now has been done.

Some action, in my opinion, should be demanded, and should start with the local Member of Parliament. He should have the proper contacts, and the know how to get this atrocity rectified.

I feel sure there are many property owners who are similarly affected, and if enough of them raise their voices, something could be accomplished.

Yours very truly,
R. J. Archer.

his broad grin can often be seen by trash cans in public places with the slogan "Help Keep Ontario Clean" prominently displayed.

Contrary to most popular opinions these are not Government projects. Public spirited citizens support this work which is carried on under the auspices of the Ontario Forestry Association, a non profit organization. Membership costs \$5.00 per year which includes "The Tree Farmer" a regular publication as well as other bulletins and the free use of an excellent moving Picture library for those able to use them.

We are pleased to note that Miners Bay Lodge of Miners Bay and Mr. Floyd Hall of Minden have recently joined the Ontario Forestry Association and we would welcome any others who care to join in this worthwhile public service.

Just write me — Jim Coats, Ontario Forestry Association, 229 College St. Toronto Ontario.

Mention the Minden Progress in your letter, we like to give credit where credit is due.

James Coats, Sec.

MIGRATORY BIRDS

REGULATIONS 1968

Bag limits for ducks in the Prairie Provinces have been reduced, but limits are largely unchanged elsewhere, according to the 1968 Migratory Birds Regulations, released today by the Canadian Wildlife Service, Department of Indian Affairs and Northern Development.

Daily bag limits on ducks in Manitoba, Saskatchewan, and Alberta have been set at five, five and eight respectively. Limits last year were eight in all three provinces. In addition, opening of the hunting season for ducks and other species has been delayed about one week in the Prairie Provinces.

Included within these limits is a mallard restriction of two per day in Manitoba, three per day in Saskatchewan and eastern Alberta, and four per day in western Alberta.

These reduced hunting opportunities reflect a shrinkage in potato breeding areas to 60 percent of last year's acreage because of dry autumn and spring and a mild winter which produced little run off.

Elsewhere in Canada, bag limits and season lengths are largely the same as last year. A restriction on redhead ducks has been reinstated in Ontario and Manitoba. In those provinces, a hunter may take only two canvasback or redhead ducks a day, and may possess only four.

An abstract of the Regulations will be mailed to each of the 385,000 hunters who purchased a Canada migratory game bird hunting permit last year. New hunters may obtain the Regulations from their provincial game departments or offices of the Canadian Wildlife Service. Posters of the Regulations will be on display in post offices.

When hunting or transporting migratory game birds, each hunter must be in possession of a valid Canada Migratory game bird hunting permit in addition to any required provincial permit. These may be purchased at post offices for \$2.00.

WAKEFIELD RODEO AT KINMOUNT FAIR

The Wakefield Rodeo, will bring acts from North America's top rodeos to the Kinmount Fair Sunday September 1.

As well as the rodeo, the fair will present Jack Bailey and his popular television group, exhibits a livestock show, horse drawn horse racing, a midway and many other attractions, on Saturday August 31.

THE SPORTS FRONT

With Al Sharkey

HALIBURTON 7 MINDEN 6

Last Wednesday night in Haliburton the Highlander club defeated our Minden boys 7-6 in close Pee-wee ball, with Mark Shell pitching the win while Ted Vasey took the loss. This was the last game of the semi finals, now Haliburton will go on to meet Lochlin for the finals.

MINDEN 9 HALIBURTON 5

The fourth game of the series was played last Sunday night here in Minden. Our boys really took to life trimming Haliburton 9-5. Haven Cook took the loss, while Dave Jawyers took the win being replaced by Jack Snell in the 5th inning. Dave was injured early in the game sliding into home. Glenn Stamp and Mike Jackson played heads-up ball for Minden. The series now stands Minden 3 Haliburton 1.

The fifth game of the playoffs was played in Haliburton on Tuesday August 27, Haliburton downed the Minden club 12-1.

Gary McKnight pitched the win for Haliburton while Jack Snell took the loss being replaced in the fifth inning by myself which was no help. Haliburton broke into the lead early in the game from then on there was no contest.

Gary McKnight and Haven Cook did a fine job in supporting Haliburton's second win of the series. Al McMullen and Graig Morrison were the lonely hitters for Minden. The series now stands with Minden three to Haliburton two.

Last Wednesday night in Minden, our senior girls went down in flames 24-19 against Snowdon.

On the following Monday night the Minden girls came back to defeat Bobcaygeon girls 20-11 in Bobcaygeon.

HOCKEY TALK

With the Hockey season just around the corner, some rumour to the East in the fair city of Haliburton has it that "Mr. Hockey" Ab LaRue is thinking hard in the direction of sponsoring two teams. These would be a Junior entry and an Intermediate team.

If this is so, the hockey fans in Haliburton County will have plenty of entertainment come winter. This county should be very happy to have such an interested Hockey fan in Ab, who spends much money and time, to give this county hockey.

There is very little official news on this however, but more information will be known later in the month.

Next week will see many officials move into the Haliburton arena. This is the NHL referee school which was held last year at this time.

After the referee school is over, the Minnesota North Stars open their fall training camp, for approximately ten days.

The Referee School and the North Stars is quite an attraction to the village of Haliburton. It is too bad our Municipal officials here can't see the writing on the wall, as to the potential of artificial ice.

This business of Hockey Schools, training camps, and other various schools such as the one NHL puts on for their referees is big business today. Haliburton sits in a good position, getting in on the ground floor.

The new executive of the Minden Minor Hockey is expected to meet some time this week to get things rolling here for the kids. They are expected to go once again to Haliburton where they spent \$1,000 on ice time last winter. It is a down right shame that this money goes to Haliburton when it should be going towards a rink here. But without ice here what can they do? From what I gather the Minden Figure skating club does the same thing, and spends more money than the hockey does in that town. Let's get smart here and catch a little of the cream, instead of being left with the skim milk.

MINERS BAY PICNIC GROUP HAVE PICNIC STOLEN

A party of 22 guests from Miners Bay Lodge held a picnic at Rackety Creek last week. The boats were left at the usual landing near the creek and the members spread out exploring and photographing the beauties of the trails leading to Big Bob Lake.

Imagine their chagrin when they returned to the picnic area and found the entire food supply missing. What is a picnic without food? The sports director made a fast trip back to the Lodge and was able to replace the supplies with the aid of the Kitchen and Dining Room staff and the picnic went on as usual.

Had the perpetrators of this foolish prank been charged it could easily have resulted in a police court record which would have been a sad ending for what appeared to be a practical joke.

FINE ARTS SCHOOL SUMMER SESSIONS PROVE SUCCESSFUL

Ceramics and an introductory art course for children were the most popular of nine subjects offered recently at the Haliburton School of Fine Arts first annual summer sessions, which attracted a total of 120 students.

In all, 24 adults were involved in beginner and advanced ceramic programs, and 34 children, mostly from the Haliburton area, took advantage of the art program tailored for them.

Other subjects offered included creative writing, weaving, linocut and blockprinting, landscape painting, drawing and painting for beginners, watercolour, and experimental painting.

Sessions were conducted from the Haliburton Highlands secondary school.

"We are reasonably pleased with the reception these programs received," said Jan Augustejn, of Haliburton, director of the fine arts school. "And judging from the comments of students and instructors, we think something was accomplished."

The school is an extension division of Sir Sandford Fleming College, but was originated by a group of Haliburton citizens, and still is managed on a voluntary basis by the original organization, now known as the Haliburton Guild of Fine Arts.

Overall aim of the school is to help both the beginner and advanced student in arts and crafts. The first courses were given last fall.

Next month, landscape painting will be offered on the weekends of September 21 and 28, linocut and blockprinting will be given the weekend of September 21, and beginning September 28 a weekend photography program will be presented.

ABOUT THE TOWN

With Jeanne Sears

Labour Day will be the first holiday this summer for the residents. The first one celebrated in Canada was in September 1864 and some places there are fine parades as at the CNE in Toronto.

There has been a great deal in the news about hepatitis. One day this past week I was reading of a Chap who had been in the navy. In fact this was a very tidy ship — officers and men showered several times a week, and were cleanshaven so that sanitary conditions were of the best. Yet he contracted hepatitis and was confined to sick bay. They traced the source of this, after a thorough search of the ship and personnel to his TAB shot, how do you like that?

Saturday was a fine day, a little too hot for the Fair, but it was excellent. The Horse Show was very fine with exhibits in all classes, the ladies work was excellent and the fruit vegetables and flowers just as good. A Stage show including amateurs continued all afternoon and the Kinsmen Band of Lindsay are fine musicians. The Cake raffle showed winners Flo Dollo, Garnet Snell and Holly Stevens. It was unfortunate that Reno Mertens suffered a heart attack but was quickly rushed to hospital by ambulance. This was a fine place to meet friends or acquaintances and the children enjoyed the midway and the pony rides. The Fair Board are to be congratulated on a very fine fall fair.

Some persons from the village have been or are away on holidays, Mr. and Mrs. Charles Stevens down east, Mrs. Etta Brentnall to the West Coast and Mr. and Mrs. M. Shantz to the East Coast and Labrador.

Genial Dave Teatro and his wife Gail are happy on the arrival of their daughter Tracy Ann.

Sam and Millie LaBarge are happily enjoying the visit with her parents Mr. and Mrs. Wm. Stone of Ormond Beach Florida.

An idea for the amusement of early arrivals at a birthday party is having colouring books and crayons or paints laid out for use until all the guests have arrived.

We wonder if children have as much fun in their infancy as adults have in their adulthood?

Here is a safety tip, when out driving, remember the most dangerous time is at the beginning of a shower, as the pavement is really slippery then.

And there was the little boy at a birthday party who made the exciting discovery that the Clown who was entertaining them took off his gloves and had real skin under them!

School will soon be in again and mothers are looking forward to this, but some of the students are not. We are pleased with the extensive plans that our children benefit by, with all the advantages of a fine staff. Many of the teachers attend summer school so that they may learn new methods and techniques. Once again the problem of no lunch rooms is a factor, but the board here continue to do a fine job keeping things in line with other schools in the province.

At Hickland Park, on highway 121 Sunday evening there was a family re-union, those being present were Mrs. Raymond Congdon, Mrs. Myrtle Roberts, Mr. and Mrs. Mervin Gilbert, Mr. and Mrs. Bob Hughes and others.

This has been a cool damp week but September usually brings good weather and is a fine time for a holiday. Cheerio until next week!

SONGS OF FAITH

The Carl Tapscott Singers (12 male and eight female choristers) have returned to CBC radio for the summer with Songs of Faith, broadcast every Sunday afternoon on the network. Tapscott is delighted to be back and hopes many of his fans will be listening to the new show which, he says, "has something for everyone".

WOODS, WATERS AND WILDLIFE

By James Woodford

One of the colder symbols in the field of love is the firefly's lamp.

Perhaps too few of us see fireflies in this era when the commonest eerie light is the bluish emanation from a television tube. But, back in the days when houses had front porches that supported creaky wooden swings fireflies were the cheapest nocturnal attraction available to a generation not yet surfeited by entertainment.

Fireflies are slender beetles capable of moving slowly in the air like a helicopter. While in flight, the male firefly blinks a signal from the lantern that is built into his abdomen. The light may flicker rather rapidly, like the signal lamp on a ship offshore. Or, it may be a longer, slow glow emitted at a languid pace. At least one species of firefly leaves its lamp steadily lighted while it dips and rises through a U-shaped arc of flight.

The intermittent flashes from a dozen fireflies may interest front-porch sitters. But the fireworks display draws a more intense response from female fireflies that are hidden in the taller grass or near the lawn. When a female sees the proper number of dots-and-dashes signalled by a gentleman of her species she responds by turning on her lamp. Most females seem to be poor fliers, and some cannot fly at all. The language of love among

fireflies has interested scientists because there is no heat in it. In all artificial processes of generating light there is a heat by-product. Some types of bulbs generate less heat than others, but some degree of heat is always present.

The firefly's lamp contains a chemical called "luciferin." Mixed with luciferin is an enzyme known as luciferase. When the firefly wants to glow, it permits oxygen to enter tubes that lead to the lamp. The presence of oxygen is necessary to activate the lamp. The necessity of oxygen tends to add to the mystery of ohw cold light is produced, rather than to explain it. In all our processes of light production, it is the hotter ones that require oxygen — like the bonfire, for instance.

ONE-CAR CRASH

Damage of \$700 resulted Sunday about 12.30 p.m. from a one car crash on Highway 121, west of Minden.

Police said the car involved in the mishap was driven by Carol Bradbury, 18, of Toronto. Minden OPP Constable K. M. Legge investigated.

**RED CROSS SERVES YOU
EVERY STEP OF THE WAY**

CANADA POST OFFICE CANCELS POST OFFICE SAVINGS BANK SERVICE

The Post Office Savings Bank which inaugurated 100 years ago "to encourage savings among people of low and medium incomes" will be phased out, Postmaster General, the Honourable Eric Kierans announced today. Starting September 3, no new accounts will be opened and no deposits accepted for established accounts. While all depositors will be requested to withdraw their money from the Savings Bank the closeout operation would be expedited if owners of inactive accounts would make application now to clear their remaining balances. The phase out is planned to span a sixteen month period during which time Parliament will be asked to consider legislation which will close the book on this chapter of post office history by January 1, 1970.

In the past Royal Commissions have recommended the closing of the Savings Bank as an economic measure but the Government of the day always took a second look at the province aspect and gave the institution a reprieve.

Only 1,500 out of a possible 9,200 post offices are providing banking service today. In 1,240 of these communities chartered banking facilities are available and in most of the remaining 260 communities some form of banking and saving service is provided through credit societies or other institutions.

MINDEN AGRICULTURAL SOCIETY FAIR DRAWS RECORD CROWDS HERE, LAST WEEKEND

(Continued from Page 1) opening took place.

The huge crowd was welcomed by the President of the Fair Mr. Leslie Prentice after which the various dignitaries made brief speeches while Mr. Fred Davis, now a summer resident of this area and a very well known TV personality officially opened the Fair.

The parade consisted of many fine entries and the judges awarded prizes to the following — Team to vehicle — Wally Denne, Orillia, S. G. Nesbitt, Minden, and Russ Uncles, Barrie. Saddle Horses — Brenda Carpenter, Baldwin, Nancy Wilson, Baldwin, and Garry Rutherford, Fenelon Falls. Pony ridden by boy or girl — Clare Jewell and Janice Henry of Cambray.

LABOUR SAFETY COUNCIL BOOTH ATTRACTS CNE VISITORS

Live demonstrations, a film presentation and wall displays of safety equipment contributed by several organizations are features of the exhibit of the Labour Safety Council of Ontario at this year's Canadian National Exhibition. Located in the Better Living Centre the exhibit is one of five Ontario Department of Labour displays at the 1968 CNE.

Participants in the exhibit include the Ontario Provincial Police, Canadian Standards Association, Ontario Department of Health, Toronto Harbour Police and the Construction Safety Association.

Attracting CNE visitors, the film presentation stresses the importance of both occupational and off-the-job safety. This feature is supplemented at frequent intervals by live demonstrations that graphically portray the effects of noise on individuals, the tensile strength of various types of rope, protection from injury provided by workmen's safety hats and the operation of safety sentries designed to guard against electrical shock in homes, swimming pools and other locations.

The Labour Safety Council is composed of 14 members equally representing labour and management. Its primary job is to advise the Ontario Government and the Minister of Labour on methods of improving the province's accident prevention programs. It also assists in co-ordinating accident prevention activities among the various agencies operating in this field.
